2.

Which sustainability goal(s) did the project contribute to?

It supports *Decent Work and Economic Growth (SDG 8)* and *Industry, Innovation, and Infrastructure (SDG 9)* by promoting employment and digital inclusion for skilled workers..

3.

What was the biggest learning during the project?

Learning how to integrate frontend with backend using Node.js and managing database connections. The team also improved in teamwork and real-world project planning.

4.	<p>How did the community benefit from this project?</p> <p>The community benefited through easier subscription management and transparent billing for workers. Distributors saved time by automating their work and improving communication with workers, which made the service more reliable and efficient.</p> <p>Local workers gain visibility and regular job opportunities. Clients save time by finding verified skilled people nearby — making both sides benefit through one digital platform.</p>
5.	<p>What improvements or future scope can be added?</p> <p>Adding in-app chat, rating system, payment integration, and GPS-based worker search to make SkillBridge a complete local hiring solution</p>
